

How Much Farther?

It was Sunday in the morning
The rising sun was in the sky
We were going to the lake
But I did not want to drive

Mom and Dad got in the car
Then they took me for a ride
I was staring out the window
But I still was stuck inside

So how much farther?
How much farther?
How much farther can we drive?
We've been lost for almost an hour
Can we pull off to the side?

When we finally stopped the car
And both my feet could touch the ground
Then my Dad said we were staying
But we soon would turn around

Since the drive there took so long
And we could not settle in
I was thinking to myself how
We would do it all again

So how much farther?
How much farther?
How much farther can we drive?
We've been lost for almost an hour
Can we pull off to the side?
