

Learn From Nature

Two birds on a wire talking to each other
Watching all the people as they're walking by
Listening to the music of all the leaves in motion
Living in the moment and never asking why

Oh we can fly high like an eagle
We can lay low like a snail
All we have to do is learn something from nature
We can live a fairy tale

A squirrel is busy hiding his treasures from an oak tree
Leaving them in places that no one else will find
Planning for the future by always doing something
Knowing that he's happy with what he's left behind

Oh we can fly high like an eagle
We can lay low like a snail
All we have to do is learn something from nature
We can live a fairy tale
